

## **2014 National Conference Report**

I am proud to be a Perianesthesia Nurse, we are indeed a "Rare Breed" these days. January 2nd, 1979 was my first experience in Phase 1 PACU. I absolutely enjoy this specialty, as every day presents new challenges.

We have the opportunity on a daily basis to care for a wide gamut of people of all ages and needs. Our area of clinical experience is very unique, to say the least. Complexities of care are encountered every day. You never know what will come through the PACU doors.

I enjoyed my educational and social networking at National Conference in Las Vegas. I am honored and very appreciative for the national scholarship awarded to me. The scholarship helped enable me to attend. I have been an ASPAN member since its inception. What a wonderful group of nursing professionals. It is an honor to be a member of such a group.

Thanks again.

Sincerely,

Rosemary "Rosey" McCoy, RN CPAN
