

## Copyright and Permission to Use Statement

American Society of PeriAnesthesia Nurses™ (ASPAN®)

*A Competency-Based Orientation for the Registered Nurse and Pain Management in the Perianesthesia Setting – 2024 Edition. (Pain CBO)*

Copyright © 2024. ASPAN. All rights reserved. Reproduction or transmission of the materials by any means, electronic, mechanical, or otherwise, in whole or in part, without the prior written consent of the copyright holder (ASPAN) is a violation of copyright law.

**All material in the 2024 Pain CBO publication is, unless otherwise stated, the property of ASPAN. Copyright and other intellectual property laws protect these materials. Users may not distribute copies to others, other than as listed below, whether or not in electronic form, whether or not for a fee or other consideration, without prior written consent of the copyright holder of the materials.**

ASPAN's competency-based orientation program, either print version or USB flash drive, was intended for **ONE single hospital/facility** to include in its unit-based orientation program.

ASPAN's standard permission is given to make photocopies of the chapter text material or retype material from the chapters to be incorporated into a printed competency program within **user's own one single hospital/facility only (NOT a multi-hospital/facility system)**, and hard copies distributed to nurses within **user's own one single hospital/facility**.

User/facility may not make scanned or electronic copies of the .pdf files or save .pdf files to other USB drives, computers, or hard drives for distribution. No part of the publication is permitted to be emailed.

ASPAN grants permission to upload **chapter material, case studies, test questions, answer keys, and competency verification methods** from its competency-based orientation programs on an e-learning system, intranet, shared internal website, or other types of catalog systems **within ONE single hospital/facility only** with no access from outside this one single hospital/facility to the *Pain CBO* information.

**Multi-hospital/facility systems must purchase ASPAN's discounted, unrestricted licensing program.**

For information on a discounted, unrestricted licensing program, contact [aspan@aspan.org](mailto:aspan@aspan.org).

The competency-based orientation program is not interactive media, but texts of core competencies developed by perianesthesia experts for the purpose of guiding clinical orientation to perianesthesia practice. In addition, the competency-based orientation programs have not been pilot tested nor approved for awarding continuing educational contact hours and, therefore, cannot be utilized in this manner.

Please credit ASPAN with authorship (required). User may not utilize material from the competency-based orientation programs in any printed or electronic matter that would be published for user or institution's financial gain. ASPAN's preferred citation:
